SUBJECT: OPERATOR LICENSING EXAMINATION APPROVAL (OPERATING TEST)
JAMES A. FITZPATRICK NUCLEAR POWER PLANT

Dear Mr. Dietrich:

The purpose of this letter is to confirm the final arrangements for the upcoming operator licensing examinations at the James A. FitzPatrick Nuclear Power Plant.

The NRC has completed its review of the operator license applications submitted in connection with this examination and separately provided a list of approved applicants to Mr. D. Johnson, Manager, Training and Development. Note that any examination waivers have been addressed in separate correspondence.

The NRC has approved the operating test portion of the examinations and will administer those tests to the applicants from March 31 to April 11, 2008. We are currently reviewing your staff's comments on the written exam. We will notify you by letter when our review is finished, at which point you will be authorized to administer the written portion of the license exam.

Please contact your Chief Examiner, Todd Fish, at 610-337-5369, if you have any questions or identify any errors in the license level (RO or SRO) or type of examination (partial or complete written examination and/or operating test) specified for each applicant.

Sincerely,

/RA/

Samuel L. Hansell, Jr., Chief
Operations Branch
Division of Reactor Safety
