OFFICE OF SECRETARY

ADJUDICATIONS STAFF

Secretary
U.S. Nuclear Regulatory Commission
Washington, D.C., 20555-0001
Attn. Rule making and Adjudication Staff.

To Whom It May Concern:

The Salt Lake Tribune's article "Italian waste:
Control board says Utah isn't the place"
Tribune Editorial, dated: 03/11/2008, gave me concern
as I contemplate our great state for my children and grandchildren.
It's one thing to be the dumping ground for the US,
but Italian waste is not appreciated nor should it
even be considered an option! Granted, I am not a
politician, but I am a concerned American citizen and
a taxpayer who believes in America. The voice of the
people must stand up for the good of the people. Let
this be a voice for a denial of Italy's nuclear waste
into our own backyard. If you produce nuclear waste,
then take care of it.

Thank you.
