Secretary
U.S. Nuclear Regulatory Commission

Attn: Rule-making and Adjudication Staff

Gentlemen,

We want to inform you that we are strongly opposed to the proposal to send low-level nuclear waste from Italy's nuclear power industry to Utah in particular, and to anywhere else in the United States. The US should not, under any circumstances, become the world's radioactive dumping ground! We believe that any country with the technological capability of producing nuclear power within its borders should not seek to dispose of its waste outside them.

Sincerely yours,

Dr. and Mrs. Thomas L. Hannum
