**Subject:** PADEP contacts and Site Visit next week

Hello Marjorie,

I was asked by my supervision to touch base with you about the State's contacts for Whittaker correspondence since it looks like you are going to be the new NRC project Manager. Roy Woods and myself are the two main leads for the organization. Roy works out of our Southwest Regional office and is the lead inspector for the project. He makes frequent visits to the site to keep track of progress. I am basically the project from our Central Office in Harrisburg. I am a Health Physicist in the Decommissioning and Environmental Surveillance Division.

In general, phone and email communication with either one (or both) of us should be sufficient for general communications and planning for this project. Because we operate out of separate offices in separate parts of the State, my management has asked me to ask you if you could please copy a number of people (that I will list) when submitting anything of significance. I will include the list in an Excel file with this email. The list will include Phone numbers, email, addresses, locations, and job titles. Hopefully this won't be a problem for you. It may seem an odd request, but this will help us be more efficient at responding.

I would be happy to discuss this with you just to clarify things if you would like. In fact we should probably just chat sometime on the phone just for introduction purposes. If you have sometime when you get back from Whittaker the end of next week, feel free to give me a call. I would like to hear how everything went. I unfortunately will not be available to attend next week's site visit. I have a training session that I scheduled to attend on Tuesday. Have a great weekend.

Bryan
