Ms. McLaughlin,

The TCEQ is still planning to provide comments on the draft EA. I am hopeful that we can send you comments by next week. Again, I appreciate your willingness to work with our state on this action.

Thanks,
Susan

Ms Jablonski:

I am writing to obtain an update on your review of the proposed license amendment for Whittaker Corporation to allow for blending of soils to meet the Waste Acceptance Criteria of Waste Control Specialists. The NRC normally provides interested parties 30 days to review EA documents for comment. Next week will mark that time frame. I did read your comments related to Yankee Rowe. To clarify, in the case of Whittaker, the NRC is not granting approval to dispose of their waste at WCS. We are approving the blending of the material to meet WCS's disposal criteria. Any state licensing issues required for the actual disposal are the responsibility of WCS and Whittaker.

Please contact me with any comments or questions at your earliest convenience. We do accept email and phone comments for EA reviews.

Thank you for your consideration,
Marjorie McLaughlin
