Thanks, Kevin:

I will try to arrange to be there on Tuesday 6/27, assuming the process will require more than 1 day. Please keep me posted so that I can move that out if the PADEP review takes longer or anything else pushes it out.

We got the OK from AIG today to go forward with the filtration. Now I need to get the system specs and get them to the PA DEP. I hope to get this out tomorrow. It will take at least a week for approval from PA DEP and a couple more days for construction/installation of the system. I would estimate that Monday 6/26 (?) we will be ready to go.

Kevin:

Two Items:

A1136

1) Can you please let me know when you expect to perform the filtration activities at Whittaker? I would like to come out to see the process, and also to see the material at Greenville Metals.

2) Do you have an ETA on the letter we discussed last week?

Thank you,

Marjorie
