Dear Ms. Roldan:

As per your phone conversation with Ms. Cynthia Peterson regarding license 045-09657-02, I am requesting changes be made in order to more accurately reflect the status of our program. Those changes are as follow:

1. **Removal of Authorized Users:** I request that Dr. Cynthia Keppel and Dr. Ashot Gasparian be removed from the license. Dr. Gasparian has left employment at the University and Dr. Keppel has a separate site license.
2. **Removal of Radioactive Materials:** Please remove the Am-241, Th-228, Co-60 sealed sources. The Am-241 and Th-228 sources were transferred to Dr. Keppel and the Cobalt-60 source has been disposed of.
3. **Removal of Locations:** The approved locations for Dr. Gasparian's and Dr. Keppel's research included the Graduate Physics Research Center (GPRC) and Olin Hall. These locations should no longer be listed on our license.

Please send all future correspondence to my attention. If there are any concerns or questions with regards to this letter, please contact me at 757-727-5398 or contact Ms. Cynthia Peterson, RSO, at 757-727-5596. Thank you.

Sincerely,

Isai T. Urasa, Ph.D.  
Chair, Department of Chemistry
