Marjorie:

I received your RAI for the Whittaker Section 2 FSSP (Control No. 137796). I will respond to the comments as soon as I can. I was out of the office last week and will be out the rest of this week but should have some time to put in to the responses. IN general, the comments seem reasonable. The approach on the more significant comments will be as follows:

Comment 1: A discussion on the EMC will be added.

Comment 5: The ScanMDC calculations will be preformed as recommended.

Comment 9: Survey/sample river bed using background levels as our investigation level.

Comment 11-A (second part): I'll have to look at the data but I don't think this will be a problem.
