At this point, we will probably not begin the FSS until June. We expect to be shipping the remainder of the stockpiled material and removing "hop spots" in Section 2 through May.

By the end of today, we will have shipped more than 1,500 tons since we started shipping last week. On shipping schedule is 15 trucks per day, Monday - Thursday. The first truck leaves the site around 6:30 am and the last one leaves around 2:00 pm. Pat has the crew on site from 6 to 4.

Good Afternoon, Kevin:

(b)(6)

EX. 6

in watch out for the Section 2 FSSP revisions and for the DP. We should be able to approve the FSSP document very quickly, and then I can work with you to schedule a confirmatory (Maybe in June or late May?), based on your schedule. The DP review will also be a priority to complete. I appreciate that you guys are working to bring the site to a close. That is our goal as well.

I'll give you a call after I get the FSSP revision.

Thanks,  
Marjey

Marjorie:

I just submitted the request for revisions for the Section 2 FSSP based on your most recent RAI to our document control. These changes have been reviewed and approved and the revised FSSP should be out late this

week or next.

The D Plan is complete and under internal review. I hope to get it out next week.
