I am send this to you because I don't know who else to send it to.

They installed the water filtration system on site yesterday and ran into some minor problems. The pre-filters (sand and gravel) were not stopping as much of the fine particulate as they hoped and the bag filters got clogged after only a few minutes. They are going to add a clarifier before the pre-filters to try to remove more solids up front.

Do you have any news regarding the ESPCP or the FSSP approval/Federal Register publication?
