Marjorie -

I left a message with Marie Miller today letting her know that the Access Agreement between Whittaker and Greenville Metals was signed last night. We hope to have the fence contractor start work tomorrow.

I want to wish you much success in your new job.

Jerry

Kevin:

Thank you for the update. Jim Kottan, whom you have met previously, will be your future contact for Whittaker. I have copied him on this message. His email address is jjk@nrc.gov, and his phone number is 610-337-5214. The license amendment for the FSSP was mailed to you last week (either Thursday or Friday). You should have it any day now. OGC has not completed their review of the ESPCP. I'll push on them today for that. I hope to complete that amendment before I formally transition to my new position, which will occur on July 9. Until that time, you may contact either Jim or myself.

It has been a pleasure working with you and the rest of the Whittaker crew. Best of luck in completing work at that site.

Marjorie

I am send this to you because I don't know who else to send it to.

They installed the water filtration system on site yesterday and ran into some minor problems. The pre-filters (sand and gravel) were not stopping as much of the fine particulate as they hoped and the bag filters got clogged after only a few minutes. They are going to add a clarifier before the pre-filters to try to remove more solids up front.

Do you have any news regarding the ESPCP or the FSSP approval/Federal Register publication?
