

April 1, 2008

Major Barry Getzen  
Michigan State Police Headquarters  
714 S. Harrison Road  
East Lansing, MI 48823

Dear Major Getzen:

Thank you for presenting at the U.S. Nuclear Regulatory Commission's 20<sup>th</sup> annual Regulatory Information Conference (RIC), March 11 – 13, 2008 in Rockville, Maryland. This year, over 2,200 participants from over 25 different countries were in attendance.

Your presentation on "The Michigan Rapid Response Tactical Team" during the Nuclear Security session provided important information about initiatives that are underway, and the range of questions and the interest of attendees were evident during the question-and-answer period following the panel presentations.

Overall feedback indicates that this year's RIC was another resounding success. Much of this success can be directly attributed to the commitment and support we received from individuals like you. The partnership and teamwork allowed us to effectively meet the challenges of developing a productive and comprehensive program for a very diverse group of participants. It also provided a unique opportunity for participants to share their views and experiences on relevant issues in the nuclear power industry.

All final presentation slides and questions that were not addressed during the conference are being compiled and will be posted on the NRC's RIC website at <http://www.nrc.gov/public-involve/conference-symposia/ric/>. Please let us know if you have questions or would like more information. Again, thank you for your participation as it was instrumental in making the 2008 RIC such a success!

Sincerely,

*/RA/*

Dan Dorman, Director  
Division of Security Operations  
U.S. Nuclear Regulatory Commission
