Subject: EnergySolutions Import License Application IW023

To whom it may concern,

Please don't approve EnergySolutions Import License Application IW023! As an environmentally conscious citizen of this country, I am appalled that anyone in the United States would think this is a good idea (unless, of course, one were making big money in the process). As a resident of Tennessee, I wouldn't want nuclear waste traveling through our state, as a wreck or hijacking would be an absolute nightmare.

Nuclear waste is a very controversial issue. The prospect of taking on the world's waste demonstrates just how little pride or concern some "businessmen" have for our nation. I would expect these kinds of shinnanagins attempted on some poor Third World country, but the U.S??? Shame on them AND you, if you approve this outrageous application!

Sincerely,

George Hickey
