SUPPORT HR 5632—

On March 2, we told you about EnergySolutions' scheme to import some 20,000 tons of radioactive waste from Italy to the U.S. EnergySolutions wants to bring this waste in through the ports of Charleston, SC and New Orleans, LA; ship it to Tennessee for various types of "processing"—including incineration and possible "recycling" into consumer and industrial goods—and then send what's left for burial in the company's shallow landfill in Utah.

This is a fight we have to win! EnergySolutions' scheme would open the door to making the U.S. the dumping ground for the world's radioactive waste. Help stop this dangerous precedent with your contribution here on our secure online server.

There have been two important developments:

Legislative: Reps. Gordon (TN), Whitfield (KY) and Matheson (UT) have introduced HR 5632, a bill to ban the import of such radioactive waste. The text of the bill is below. However, the bill isn't going anywhere unless we all back it loudly and clearly. Please call your Representative today and demand that he/she cosponsor HR 5632, and work to get this bill to the House floor and on to the Senate.
