RULEMAKINGS AND  
ADJUDICATIONS STAFF

EnergySolutions  
Docket No. 110057

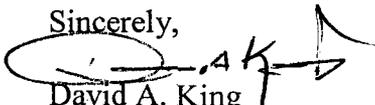

Subject: EnergySolutions' license application to import Italian waste.

As an employee working at the EnergySolutions Bear Creek facility in Oak Ridge, Tennessee, I am writing in strong support of the import license application. I am very proud and honored at the long list of companies that entrust us daily to safely process there material and look forward to the opportunity to do the same for foreign companies now. In fact, we are currently processing material from Canada that is very similar to the material we would process from Italy.

EnergySolutions' record of the safe handling of waste materials, meeting applicable license requirement, regulation, and state and federal law demonstrates its absolute commitment to environmental safety. The Bear Creek facility has received the National Safety Council's Perfect Record Award and is in the process of obtaining the Tennessee OSHA Voluntary Protection Programs Star status. I have no doubt in my mind that if the Commission grants the license application, EnergySolutions will continue meeting its high safety standards.

I would like to thank the Commission for reviewing the license request, and strongly urge the Commission to approve the request.

Sincerely,

  
David A. King
