Re: Import License for Energy Solutions

Dear Secretary,

I cannot express my objection strongly enough to the potential license of Energy Solutions plan to import Italian nuclear waste. Utah cannot become a dumping ground for foreign waste. This site is the only location for the nuclear waste for 36 states and must remain protected for that need.

The Utah Radiation Control Board has made a very strong ruling against this plan. Our Congressman Jim Matheson has spoken against this plan.

I urge you to respect their decision as well as the wishes of a majority of the folks living in Utah.

Yours truly,

Mary Suarez
