Subject: Accepting Any Other Nation's Radwaste

Sunday, March 30th, 2008

Dear Nuclear Regulatory Commissioners:

Please reexamine your scientific premises regarding considering the importation of radwaste from any other nation. Whether the waste is produced by a friendly nation or not, we haven't satisfactorily solved our OWN waste storage problems; how do we rationally take in anyone else's?

THREE MAIN AREAS OF CONCERN:

- (1) Long-range shipments of this waste across America, shipped by rail, road, or water routes are vulnerable to terrorist attack.
- (2) Yucca Mountain as a permanent waste storage site may not be approved, is located in an active earthquake zone. This is not a geologically stable formation!
- (3) We are running out of storage room at all 103 U.S. reactors currently generating wastes, with no agreed-upon solution in sight.

DOCKETED
USNRC

March 31, 2008 (3:02pm)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

In the interest of health and safety, following sound physical principles, I'm imploring you to deny licensing to any and all such proposed projects.

Sincerely,

Amber F. Ladeira
Chicago, IL
