Subject:	Please Deny EnergySolutions' Import Application (IW023) submission

Please copy and paste some or all of the above message into the text box below : Dear Office of the Secretary and Gov. Huntsman,

I'm writing to urge the Nuclear Regulatory Commission to deny EnergySolutions' request to import 20,000 tons of Italian nuclear waste into the U.S. This single request is many times larger than previous import licenses granted by the Commission and would therefore represent a serious departure in this country's policies for handling nuclear waste.

If they have the technology to produce the waste, they can dispose of it in their country, or in an adjacent country with which they have an agreement.

The U.S. cannot become the universal dumping ground. Stop the Italian waste so others will not follow.

Stop EnergySolutions from receiving this waste.

With Regards,

Lynn Wade
