comments: I was reading on a news article about Italy's foreign waste coming to Utah. I am opposed to this. We produce enough waste domestically that we don't need to take on any foreign waste. If you produce the waste, you should be responsible for it. I didn't know where to go to comment on the 'application' for EnergySolutions in Utah because the article didn't reference it on KSL.com. If there is another place I can comment about this, please let me know. Thank you.
