SUBJECT: SPECIFIC DATES OF WORK ACTIVITIES IN NRC JURISDICTION

This letter is to clarify the regulatory requirement in 10 CFR 150.20, which requires the general licensee to inform the NRC of specific dates of work in NRC jurisdiction. Your initial NRC Form 241 provided a date range which exceeded the 180 day limit in a calendar year, although the total number of days documented on your NRC Form 241 did not exceed the 180 day limit in a calendar year. Please provide the specific dates of your work activities in NRC jurisdiction, in lieu of the date range submitted on your initial NRC Form 241.

Please note that the 3 day notice was waived, provided that you inform this office by telephone or facsimile of work activities or revisions to the information submitted on the NRC Form 241, by the date of the scheduled activity.

As a reminder, you must submit an NRC Form 241 clarification report, or equivalent, when you propose to add locations of work, add or delete dates of work, change work site contacts, use different radioactive materials, or elect to perform additional work activities within NRC jurisdiction, and subsequently provide those changes to this office. All clarifications of work activities or revisions to the information submitted on the initial NRC Form 241 must include as a minimum, the following information: 1) licensee name, 2) agreement state license number, 3) location of work, 4) dates of work, and 5) signature of the RSO or designee.

If there are any questions regarding this letter or other aspects of working in NRC jurisdiction under reciprocity, please contact me at (817) 276-6552 or **R4_Reciprocity@nrc.gov**.

Sincerely,

A handwritten signature in cursive script that reads "Rachel S. Browder".

Rachel S. Browder, Health Physicist
Nuclear Materials Safety Branch B
