Subject: nuclear waste from Italy

We have plenty to worry about in Utah without taking on the nuclear problems of the world. Even low-level nuclear waste has to be monitored for hundreds of years. Our waste facilities have not based their projections on taking in waste from around the world. The people of Utah do not want this risk in our state or traveling through our state. We value our beautiful natural environment and are already struggling to manage the impact of pollution produced by our own growing population. We must do everything we can to keep nuclear waste out of this state. Keep nuclear waste out of Utah!
