OFFICE OF SECRETARY  
RULEMAKINGS AND  
ADJUDICATIONS STAFF

Docket No. 11005711

**Re: EnergySolutions' import license application**

I would like to express my support for EnergySolutions' import application. With more than 25 years of experience in environmental restorations, EnergySolutions has proven itself to be a leader in waste disposal.

You should also know that EnergySolutions has an excellent safety record, and they operate with a distinct concern for public safety; sensitive to environmental safety.

It is my understanding that the company has met every applicable Commission, Department of Transportation and state requirement for the safe handling and transportation of nuclear materials.

Therefore, EnergySolutions has proven that it is a responsible company, and the Commission should approve their license application.

Sincerely,

A handwritten signature in black ink, appearing to read "John Hill", is written over a circular stamp.

John Hill  
State Director
