Jay Patterson  
Radiation Safety Officer  
Lone Star Industries, Inc.  
d/b/a Buzzi Unicem USA  
P.O. box 482  
Greencastle, IN 46135

Dear: Mr. Patterson:

Enclosed is Amendment No. 10 to your NRC Material License No.13-12374-01 in accordance with your request. Please note that the major changes made to your license are printed in bold font.

This amendment authorizes you to serve in the capacity of the Radiation Safety Officer (RSO) for the subject license referenced above, based on your training and experience including previously serving as RSO for subject license. It is also based on your acknowledgment, during a telephone conversation on 3-20-2008, of your selection for the position and of the duties and responsibilities the position entails. It also removes from the license those items that had been authorized for "storage only incident to disposal" based on your providing documentation confirming their proper disposal by transfer back to the manufacturer. It also removes from the license, one make and model of gauge which you confirmed had never been possessed and requested that it be removed from the license. It also places the possession limits on your license as specified in your facsimile dated March 25, 2008.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

A handwritten signature in cursive script, reading "Loren J. Hueter".
