Subject: Re: 35.1000 for Sir-Spheres for Dr Inampudi's license

Yongli: Dr. Inampudi's Board Certification is in "Diagnostic Radiology" which in no way qualifies him for brachytherapy. Pls. note in 35.490 of the NRC regulations that he would have to meet the requirements in paragraphs (b)(1) and (b)(2). Unless you can supply additional training information for him, I can not see how he would have all those hours of didactic training and the 3 years of supervised clinical experience in radiation oncology. It doesn't matter if it is for "SirSpheres Y-90 only", he still has to comply with the 35.490.

Jim:

I looked at the NRC's Tool Kit article about microspheres and noticed the training can be either 35.390 or 35.490. I seemed to me that Dr Inampudi meets 35.490's requirements (for SirSpheres Y-90 only). My impression is as long as he is board certified and has attestation for competency of the source he is qualified. Would you look at his situation again?

Thank you.

Yongli
