Ken:

The staff requests to brief the Commission TAs during the week of 7/24 on the EPA Yucca Mountain Standard, and if possible, the staff requests that the briefing be conducted after 2:30 p.m. on 7/24.

The staff has been interfacing with EPA on the final standard for Yucca Mountain over the last month. The key areas of discussion are (b)(5)

EX. 5

(b)(5)

The staff understands that EPA will be requesting a meeting of OMB, EPA, DOE, and NRC the week of 7/31 at which there would be an opportunity to provide agency comments, prior to the formal OMB interagency process on a draft final EPA rule.

The purpose of the TA brief is to provide background, discuss the issues, and next steps (including plans for discussion during the meeting that EPA will be requesting).

Thanks,
Andrew
