SUBJECT: ACCREDITATION OF MASTER INFORMATION SYSTEM
SECURITY PLAN FOR THE PLANT CONTROL TRAINING
SYSTEM AND LICENSE AMENDMENT 7

Dear Mr. Cowne:

On October 18, 2007, Louisiana Energy Services (LES) submitted its "Master Information System Security Plan for the Plant Control Training System." On January 29, 2008, you also provided responses to our December 31, 2007 request for additional information.

Under the terms of an Interagency Agreement between the U.S. Department of Energy (DOE) and the U.S. Nuclear Regulatory Commission (NRC), DOE is serving as the Designated Approval Authority for accreditation of classified information technology systems at the LES facility. DOE has found that a system consistent with terms and constraints of the Plant Control Training System can be accredited to process Confidential-Restricted Data. We are therefore, approving the "Information System Security Plan (SSP) for the Plant Control Training System" and are amending the LES license to approve the classified information technology system for operation. License Condition 10 has been revised to add reference to this security plan. All other conditions of the license shall remain the same. A copy of License Amendment 7 is enclosed.

If you have any questions, please contact Mr. Timothy C. Johnson at 301-492-3121.

In accordance with Title 10 of the Code of Federal Regulation, Part 2.390 (10 CFR) 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's document system (ADAMS).
