Southern Nuclear Operating Company
Vogtle Early Site Permit Application - Revision 4

Ladies and Gentlemen:

On August 14, 2006, Southern Nuclear Operating Company (SNC) submitted an application to the U.S. Nuclear Regulatory Commission (NRC) requesting an Early Site Permit (ESP) for two additional reactor units at the Vogtle Electric Generating Plant (VEGP). The application was submitted in accordance with Part 52, Subpart A of Title 10 of the Code of Federal Regulations. SNC subsequently submitted Revisions 1, 2 and 3 of the ESP application to the NRC on November 13, 2006, May 3, 2007, and November 30, 2007, respectively. However, as a result of SNC responses to further NRC requests for additional information (RAIs) on limited work authorizations (LWAs) and to NRC follow-up questions on Safety Evaluation Report (SER) open items, SNC has revised the ESP application. The application revision (Revision 4) also supports SNC's submittal of the VEGP Units 3 and 4 Combined License (COL) Application. A summary of the Revision 4 changes is provided in Enclosure 2.

As noted in our August 14, 2006 submittal letter, there is a limited amount of owner proprietary and sensitive information contained in Sections 8.4.1 and 10.4.1 of the ESP application's Environmental Report (ER). The information in these ER sections has not changed since Revision 0 of the ESP application, and therefore, is the same information as contained in our August 14, 2006 submittal letter. SNC again requests that this information be withheld from public disclosure (i.e., non-publicly available), in accordance with 10 CFR 2.390(b). In addition, SNC requests a waiver of the affidavit requirement for original affidavits, in accordance with 10 CFR 2.390(b)(1)(ii), on the grounds that the original affidavits supporting a request for withholding of the information are already on file with the NRC. Enclosure 1 contains a copy of the affidavits for withholding that was submitted with our August 14, 2006 submittal letter in accordance with 10 CFR 2.390.

Electronic versions (i.e., digital video disks [DVDs]) of both the publicly available and the non-publicly available versions are provided as Enclosures 3 and 4, respectively, and have been prepared to NRC specifications for electronic submittals. The publicly available and non-publicly

D078
NRO

available DVDs are each complete versions of the revised (Revision 4) ESP application. The Revision 4 ESP application DVD replaces and supersedes the existing Revision 3 ESP application. In addition, by copy of this letter, four (4) copies of the non-publicly available revised ESP application on DVD, thirty (30) copies of the publicly available revised ESP application on DVD and four (4) hard copies of the non-publicly available revised ESP application pages (changed pages only) are being provided to the NRC Vogtle ESP Project Manager. Instructions for inserting the changed hard copy pages into the ESP application are included with the Revision 4 hard copies.

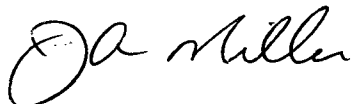

The SNC licensing contact for this revised application is J. T. Davis at (205) 992-7692.

This revised ESP application does not contain restricted data or other defense information that requires separation from the unclassified information in accordance with 10 CFR 50.33(j) pursuant to 10 CFR 52.17(a)(1).

Mr. J. A. (Buzz) Miller states he is a Senior Vice President of Southern Nuclear Operating Company, is authorized to execute this oath on behalf of Southern Nuclear Operating Company and to the best of his knowledge and belief, the facts set forth in this letter are true.

Respectfully submitted,

SOUTHERN NUCLEAR OPERATING COMPANY

Joseph A. (Buzz) Miller

Sworn to and subscribed before me this 28th day of March, 2008

Notary Public: Dana M. Williams

My commission expires: 12/29/2010

Enclosure 1

Affidavits for Withholding

from

August 14, 2006 Submittal Letter

AFFIDAVIT OF OSCAR HARPER

I, Oscar C. Harper IV, Vice President, Resource Planning and Nuclear Development of Georgia Power Company ("Georgia Power") state that:

1. I am authorized to execute this affidavit on behalf of Georgia Power.
2. Georgia Power is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) and fuel needs data (as indicated in Chapter 10 of the Environmental Report, Section 10.4.1)(the "Information"). The Information is proprietary, trade secret, and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by Georgia Power.
 - b. The Information is of a type that is held in confidence by Georgia Power and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning Georgia Power's need for power data, reserve margin and fuel needs.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of Georgia Power by disclosing its need for power data, reserve margin and fuel needs data to other parties whose commercial interests may be adverse to those of Georgia Power.
3. The Information is the type of data that Georgia Power protects in its filings with the Georgia Public Service Commission in accordance with such Commission's practice for protecting such information. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3)

otherwise compromise Georgia Power's ability to procure the best cost resources from the energy marketplace. Southern Nuclear Operating Company ("SNC"), working on behalf of the owners, has limited the access to the Information to those SNC individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, Georgia Power requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

AFFIDAVIT OF MICHAEL W. PRICE

I, Michael W. Price, Chief Operating Officer, of Oglethorpe Power Corporation (An Electric Membership Corporation) ("Oglethorpe") state that:

1. I am authorized to execute this affidavit on behalf of Oglethorpe.
2. Oglethorpe is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) (the "Information"). The Information is proprietary, trade secret and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by Oglethorpe.
 - b. The Information is of a type that is held in confidence by Oglethorpe and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning Oglethorpe's need for power data and reserve margin.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of Oglethorpe by disclosing its need for power data and reserve margin to other parties whose commercial interests may be adverse to those of Oglethorpe.
3. The Information is the type of data that Oglethorpe holds confidential. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3) otherwise compromise Oglethorpe's ability to procure the best cost resources from the energy marketplace. Oglethorpe provided the Information for inclusion in the ESP Application pursuant to agreements that require that access to the Information be

limited to individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, Oglethorpe requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

AFFIDAVIT OF ROBERT P. JOHNSTON

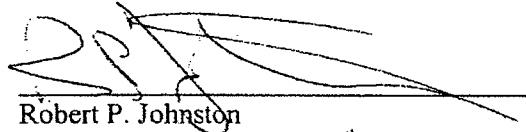

I, Robert P. Johnston, President and Chief Executive Officer of the Municipal Electric Authority of Georgia ("MEAG"), state that:

1. I am authorized to execute this affidavit on behalf of MEAG.
2. MEAG is providing information to the Nuclear Regulatory Commission ("NRC") in support of its "Environmental Report" filed as part of its Early Site Permit Application ("ESP Application"). Both Redacted and Confidential Versions of the ESP Application are being provided to the NRC. The ESP Application contains confidential need for power data (as indicated in Chapter 8 of the Environmental Report, Section 8.4.1) (the "Information"). The Information is proprietary, trade secret, and confidential commercial information that should be held in confidence by the NRC pursuant to the policy reflected in 10 C.F.R. § 2.390(b) because:
 - a. The Information is and has been held in confidence by MEAG.
 - b. The Information is of a type that is held in confidence by MEAG and there is a rational basis for doing so because the information contains sensitive trade secret confidential commercial information concerning MEAG's need for power data and reserve margin.
 - c. The Information is being transmitted to the NRC in confidence.
 - d. The Information is not available in public sources and could not be gathered readily from other publicly available information.
 - e. Public disclosure of the Information would create substantial harm to the competitive position of MEAG by disclosing its need for power and reserve margin data to other parties whose commercial interests may be adverse to those of MEAG.
3. The Information is the type of data that MEAG holds confidential. Revealing the Information could (1) assist competitors in undercutting bids to win either wholesale or retail customers, or both; (2) impair the cost-effectiveness of future power purchases or capacity procurements by, for example, providing prospective sellers of power with assumptions to the detriment of the owner (and such owners' customers); and (3) otherwise compromise MEAG's ability to procure the best cost resources from the energy marketplace. Southern Nuclear Operating Company ("SNC"), working on behalf of the owners, has limited the access to the

Information to those SNC individuals with a "need to know" to facilitate drafting and other matters necessary in pursuing an ESP Application.

4. Accordingly, MEAG requests that Information, as contained within the Confidential Version of the ESP Application, be withheld from public disclosure pursuant to the policy reflected in 10 .C.F.R. § 2.390(b).

Description of Changes in Revision 4

of the

Vogtle Early Site Permit Application

Vogle Early Site Permit Application Description of Changes in Revision 4	
Affected Sect., Tbl., or Fig.	Reason for Change
Application Part 1 – Administrative Information	
Section 1.3	Corrected mailing address.
Section 2.1	<ul style="list-style-type: none"> • Corrected terminology that ‘COL’ is the acronym for • Revised summary description for Part 4 - Site Redress Plan to account for LWA request • Minor editorial change for summary description for Part 5 – EP.
Section 3.2	Corrected mailing address.
Section 3.3	Updated descriptions of business owners and specified who is the ESP applicant and who are the new unit owners.
Section 3.4	Updated mailing addresses, co-owner directors/officers and titles, and the description for co-owner City of Dalton.
Application Part 2 – Site Safety Analysis Report	
TOC, LOT and LOF	Updated to reflect SSAR changes in below chapters/sections.
Sections 1.1 and 1.2.2	Revised Units 1 and 2 reactor thermal power rating due to power uprate.
Section 1.4	Corrected the company name for Westinghouse.
Tables 1.2 and 1-3	Revised table entries for Regulatory Guides 1.26, 1.28 and 1.29 due to NDQAM revision.
Section 2.5.2	Revised per RAI responses from SNC letter AR-08-0045 and responses from SER open items in SNC letter AR-07-1802
Section 2.5.4	Revised per RAI responses from SNC letter AR-08-0045 and responses from SER open items in SNC letter AR-07-1802
3.8.5	Added text and Table 3.8.5.1-1 for ITAAC involving the foundation waterproof membrane.
Section 13.3	Deleted implementation action statement with regards to NEI 06-01.
Section 13.3.1	Added clarification concerning commercial/industrial use of land near the site per SNC letter AR-08-0400.
Section 13.3 References	Deleted reference to NEI 06-01 technical report.
Section 13.7 and Appendix 13.7A	Clarified wording to specify described FFD program only applies for LWA activities per RAI responses from SNC letter AR-08-0045.
Appendix 17.1A	Revised to reflect SNC operational support staff reorganization and to add requirement to Part II, Section 17.2 which states that periodic inspections of systems, software applications and media are performed to ensure the retrievability, integrity and retention period of electronic records. Also, revised sections dealing with Engineering, Procurement and Construction contractor to reflect current activity. Organizational charts were also redrawn; however, no changes in the organization or reporting relationships were made.
Application Part 5- Emergency Planning	
Base Plan	Revised Section B to clarify augmentation time in response to SER open items per SNC letter AR-08-2258
Annex V2	Revised ITAAC tables per responses to SER open items in SNC letter AR-07-1773, and revised Hot and Cold IC Tables to reflect NEI 07-01 revision

General Notes:

- 1) Due to NRC issuance of the Draft Environmental Impact Statement for the Vogtle ESP Application (i.e., NUREG-1872) on September 4, 2007, the ER is considered a 'frozen document' that will no longer be revised. All ER page footers indicate "Revision 2" as the revision level, and all right-hand margin change bars in the ER have been removed.
- 2) With the exception of ER pages, the remaining ESP application pages with footer revision level/date indicators have been changed to "Revision 4 March 2008." Information that actually changed from the previous revision of the ESP application is denoted by revision bars in the right-hand margin.
