SUBJECT: U.S. SILICA COMPANY, VOIDANCE OF APPLICATION FOR LICENSE  
AMENDMENT, CONTROL NO. 141275

Dear Mr. Pryor:

This concerns the subject application for an Amendment to your material license. Based on a discussion with Ms. Jennifer Scriver, of your organization, on April 1, 2008, it appears the radioactive material you requested to be added to your NRC Specific License is a generally licensed gas chromatograph and does not require an amendment to your specific license. We have determined that your license does not need to be amended at this time.

You also requested that Ms. Scriver be named the Radiation Safety Officer (RSO) for License No. 47-09375-07. Please note that this license authorizes fixed gauges and for Ms. Scriver to be listed as the RSO, she will need to attend an applicable training course. Information regarding acceptable training can be found in Section 8.7.1 of NUREG-1556, Volume 4. This NUREG can be found on our website at:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v4/>

Once Ms. Scriver successfully completes the training, you may resubmit your request to name her as RSO.

Based on the information discussed above, we have, therefore, voided your application. This action is taken without prejudice to the resubmission of your request.

Sincerely,
