Richard McKinley, Health Physicist
Nuclear Materials Safety Branch I
Division of Nuclear Materials Safety
475 Allendale Road
King of Prussia, Pa 19406-1415

Dear Mr. McKinley,

03002506

In reference to our N.R.C. Radioactive Materials license No. 29-07868-01, currently under review (Control #142149) and our telephone conversation regarding elimination of Part 35.400 from same, I will report that the last patient treated at our facility was done 19 July 2005. On thorough inspection of the hot lab storage area, it was determined that there are no I-125 seeds on site. These were either returned to the manufacturer or may have been disposed of in the regular trash as they would have reached background radiation levels by July 2007. Patient treatment records are on file in the department to corroborate dates of service. Hopefully, this will suffice regarding our request to eliminate this service from our license.

Should you need any additional information, please do not hesitate to contact me.

Sincerely,

Jeanne M. Giannandrea
