Dear Mr. Vinson:

Thank you for sending me your March 31, 2008, letter transmitting the comments of the Illinois Emergency Management Agency, Bureau of Radiation Safety, on the Independent External Review Panel's Draft Report.

Your comments provide a very valuable point of view and, although the Panel's work is completed, we have forwarded your comments to the Materials Program Working Group for their consideration as they identify short- and long-term strategies to mitigate security vulnerabilities identified in the reports of the Government Accountability Office, the *Senate Committee on Homeland Security and Governmental Affairs, Permanent Subcommittee on Investigations*, and the NRC's Office of the Inspector General reports.

Sincerely,
