

Concluding Remarks

April 15, 2008

Mitsubishi Heavy Industries, LTD.

Concluding Remarks (1/2)

- **MHI believes that the additional information presented today should greatly facilitate and accelerate the NRC's review schedule of the US-APWR DCD.**
 - => MHI has structured its submittals to allow draft SER in fourth-quarter 2009.**
- **US-APWR features are proven and extensively reviewed in prior PWR design. Its high quality DCD should minimize the ACRS's review schedule.**
 - => MHI anticipates the ACRS's review (18 months) to be significantly shortened.**

Concluding Remarks (2/2)

- MHI believes that the above schedule supports issuance of customer's COL currently scheduled for mid 2012.
- MHI would appreciate timely feedback on the items presented today prior to issuance of the final schedule.
- Following today's meeting, MHI will provide a letter to the NRC by April 18, 2008 summarizing actions and activities to be completed by MHI.
