Secretary of the United States
NUCLEAR REGULATORY COMMISSION

Attention: Rulemaking and Adjudication Staff

Dear Rulemaking/Adjudication Staff:

I would appreciate consideration regarding low-level radioactive waste; (1600 tons) from Italy be buried in some country other than the US. I understand that Toole, Utah is under consideration for this purpose. I don't believe that it is in our best interest to become the world's radioactive waste dump. Thank you!

Sincerely,

Carole J. Hayes-Berg
