Subject: Italy's Radioactive Wastes NOT TO USA!!!

Dear Secretary and NRC,

DON'T EVEN THINK ABOUTTIT! Do NOT allow 20,000 tons of Italy's wastes to sail across the sea to our country.

We have enough trouble with our own, not being able to safely store it. And we all know that incinerating radioactive waste does nothing to the radioactivity but fly it up in the incinerator chimney to spread all around our nation with the sparks and the dust.

We must not permit EnergySolutions' scheme to bring this waste into the USA through the ports of Charleston, SC and New Orleans, LA; ship it to Tennessee for various types of "processing"—including incineration and possible "recycling" into consumer and industrial goods—and then send what's left for burial in the company's shallow landfill in Utah.

I urge you, the Nuclear Regulatory Commission, to deny license applications IW023 and XW013. These applications would allow EnergySolutions to import these 20,000 tons - a million cubic feet - of radioactive waste from Italy into the United States.

Outraged,
Conrad Miller MD
PO Box 180
Watermill, NY, 11976

DOCKETED
USNRC
