FOIA/PA REQUEST

Case No.: 2008-0192
Date Rec'd: 4-17-08
Specialist: Raphael
Related Case: _____

To Whom it May Concern:

I am trying to locate an internal memorandum that is dated March 26, 1981. The title of the document is "Definition of Operable - Multi Plant Issue D-17" It is from S. Miner to S. Varga.

This letter is referenced in multiple Technical Evaluation Reports (i.e., 8311100082, 8402150538, etc). I cant seem to locate the referenced letter.

The PDR staff did locate one record for a memorandum dated March 26, 1981, but it is non-public microfiche that is not in the PDR. The title is "Discusses definition of "operability" as it applies to single safety criterion for safety sys in power reactors. Technical assignment control forms encl."

Thank you in advance,
