ASSESSMENTS

On April 16, 2008, the Nuclear Regulatory Commission (NRC) held a public meeting at the Lake Charter Township Hall in Bridgman, Michigan. The meeting was between NRC Region III management and Indiana Michigan Power Company representatives to discuss the NRC's 2007 End-of-Cycle Assessment of the D.C. Cook Nuclear Plant Unit 1 and 2 safety performances. The results of these assessments were discussed in a letter to the licensee dated March 3, 2008 (ADAMS ML080600289).

The NRC began the meeting with an overview of the NRC and the nuclear industry, the NRC's Reactor Oversight Process (ROP), and national ROP results. This was followed by a summary of the NRC's assessment of D.C. Cook Unit 1 and Unit 2 performances in 2007. The NRC's meeting presentation slides can be found in ADAMS at ML081070238. A list of principal meeting attendees can be found in the attached enclosure.

At the end of the meeting, members of the public were given the opportunity to ask questions of NRC officials.
