to organizations who has proven itself to be non-probriety. Commissioners the Tennessee Valley Authority has never in my life-time proven itself to be a good neighbor. I am acutely aware of the Promises outlined by the Tennessee Authority The legacy of Tennessee Authority is one of harm and poverty. I was born and reared in Jackson County, Alabama. My Family had to leave the county of Jackson county to earn a living. After I enlisted in the United States Armed Forces and became injured serving my Country Tennessee Valley Authority officials thanked me by denying me employment because I had become wounded in Vietnam. The time frame of the aforementioned honorable action was in the mid-seventies. Please note that their doctor Tennessee Valley Authority's doctors stated that they could not find any physical problems with my health, but because I had acknowledged that I had been injured in combat they could not allow me to earn a living working for the Tennessee Valley Authority. I believe that this is the same

ignoble governmental agency that failed

to honor its promise to the people

of Jackson County, Alabama in 1970. The

Tennessee Valley Authority have failed

the people of North Alabama. Some very

small segments of ^{our} community, I submit ^{have benefited}

that far more people suffered like

my family. All of the families I grew up

with have not benefited by the evil

of the Tennessee Valley Authority Project

known as Bellefonte Nuclear plant. I

believe that the cost, negative cost has

outweighed benefits. I feel that some of

plutocrats attitude of the 1970 Bellefonte

○ Over thirty-years ago. The wisdom that
the TVA Board failed to exhibit when they
started at Bellefonte Nuclear Plant and
later stop depict a great lack of wisdom
on the part of officials of the Tennessee

surrounding areas.

I want to reiterate my opposition

to the licensing of Bellefonte Nuclear

Plant. My one voice is raised because

I love the community and I am deeply

saddened that the business people see only

profit and fail to see the needs of the

people. I know that there will be a boom

for a very few businesses, but a very big

bust for the people, the environment, and

a great loss of confidence in our governmental

officials. *Vox in dire and semper paratus for Justice.*
