RE: Amending NRC License No. 45-10831-02

Dear Ms. Gabriel:

We request that our radioactive materials license be amended to add North American Scientific, Inc., as a vendor of brachytherapy seeds. The materials and Prospera model numbers are 125Iodine, Model 3631-A/M and 103 Palladium, Model 3633.

We respectfully ask that you expedite this amendment request because of the large cost reduction per seed that we have just negotiated. If possible, we would like to start ordering the seeds during the first week of May, 2008.

Questions regarding this request should be addressed to our therapy physicist, Dr. Leland R. Kirkland. He can be reached by telephone at 757-398-2447 or pager at 757-680-0134.

Thank you for your assistance in this matter.

Sincerely,

Susan A. MacLeod
Executive Vice President/Administrator
