**Subject:** RE: Draft Environmental Assessment for China Lake, CA

Since the building 5 will remain the property of the Navy, and NRC staff concluded in this EA that Navy has met the Part 20, 1402 release criteria, [RHB](#) has no comments for this NRC action.

Attached is a draft environmental assessment for China Lake, CA for your review and comment.

The Navy has remediated and performed a final status survey of Building 5 at the Naval Weapons Air Warfare Center in China Lake California. They wish to terminate the radioactive materials permit for the facility and release the building for unrestricted release. It will remain the property of the Navy.

If you have any questions or if I can provide additional information please call me at (864) 427-1032.

Thank you.
