Constellation Energy Fleet Initiatives

Constellation Energy's Nuclear Fleet shares knowledge and resources through Peer Teams to increase efficiency and enhance work processes.

Some examples of current fleet initiatives include:

- Workforce Management Strategy
- Implement Standard Engineering Processes
- Refueling Management Standardization
- Develop Fleet Procedures

Community Support

Constellation Energy and the employees at Nine Mile Point continue to support the Central New York community through financial contributions and volunteer hours.

In 2007, Constellation Energy and its employees contributed more than \$350,000 to community organizations and events.

- United Way \$227,000
- Harborfest \$40,000
- Call-N-Ride \$16,000
- American Red Cross \$12,750
- Camp Hollis Project X \$5,000

Conclusion

- 2007 was a challenging and successful year
- NMP is committed to safety and reliability –investing in people and equipment
- NMP is focused on continuous performance improvement
- Positioning NMP to align with the best in the industry
