Subject: **REQUEST FOR EXTENSION TO REQUEST FOR INFORMATION CONTROL #141314**

Dear Ms. Beardsley:

We are currently completing our response to your letter dated March 11, 2008, which requests additional information regarding our application for new license control No. 141314. Our goal was certainly to provide you the requested information by April 11. However, as you may be aware a major focus of BHI's business is supporting the commercial nuclear power station refueling outage. Several of our staff in our engineering department has been involved in this support work

We are certainly committed to providing the requested information and will do so by **May 9th**. Please accept this letter as evidence of our continued interest pursuing the License.

We thank you very much for your review of our application and look forward to discussing any questions you may have regarding our response. If you have any questions please contact Bruce Dionne, CHP (800-225-0385 x1241) Chris Messier (x1300) or me (x1286.)

Sincerely,

Jerry W. Hiatt, CHP
Executive Vice President – ESH&Q
Chief Technical Officer
