Mr. James G. Luehman, Deputy Director, Materials Safety and State Agreements, FSME - Welcome to your new position!

Attached is our rule-making order adopting a permanent change to multiple sections in Chapter 246-231 of the Washington Administrative Code, Packaging and transportation of radioactive material. The adopted rule provides "Compatibility with IAEA Transportation Safety Standards". The specific changes in our regulations, in state-required editing style (new language is underlined; proposed deletions are lined-out), are shown in the second attached file.

We believe that this revision will satisfy the compatibility and health and safety categories established in your Procedure SA-200 for the regulation amendment described as RATS 2004-1 (SA-201). You will discover that this is your first opportunity to review these regulation changes. We apologize for overlooking the need to submit these rules at the "proposed rule" stage. We are making changes to our internal process to assure that this does not happen again.

If you have any questions or comments, please contact me at your earliest convenience. Thank you.
