SUBJECT: SAINT PETER'S UNIVERSITY HOSPITAL, VOIDANCE OF APPLICATION FOR
LICENSE AMENDMENT, CONTROL NO. 141898

Dear Mr. Costabile:

This concerns the subject application for an Amendment to your material license. Because you informed us that you will not be able to supply the additional information required to complete the requested action for some time, we have voided your application. Specifically, your amendment request was reviewed against the current NRC licensing guidance for microsphere use at www.nrc.gov and additional information regarding the training and experience of your requested authorized users was necessary to support the application (e.g., vendor training on the operation of the 2 devices and experience with 3 cases for each device). This action is taken without prejudice to the resubmission of your request. In addition, in any future submissions please indicate whether the manufacturers' instructions will be followed for drawing up the dosage and for device setup.

Sincerely,

Original signed by Penny Lanzisera
