Subject: Information request for NRC license application

Dear Mr. Thompson: as discussed with you by telephone yesterday, please provide the following additional information to support your NRC license application:

1. Provide the "RSO Delegation of Authority" memorandum that you referred to in your February 29, 2008 cover letter. It was not enclosed with your application.
2. Since you signed the application, please provide a statement from the EMS management that you are authorized to sign and make commitments for the company.
3. Based on information you provided during our April 21, 2008 telephone call, you need to confirm that you are requesting possession of licensed material only while working at temporary job sites of your clients and that you do not own facilities that would require decommissioning and decontamination under your NRC license and that financial assurance prescribed in 10 CFR Parts 30, 40 and 70 is not required. If this statement is incorrect, please notify me of any corrections that are needed.
4. Submit your sealed source leak test procedures or state, "we will follow the model procedure in NUREG 1556, Volume 11, Appendix T".

You may submit your response to the above items by e-mail. Also I can be reached by telephone at 925-673-9646.

Sincerely, James Montgomery, NRC Region IV
