Dear Mr. DeLaBarre:

Enclosed for your information is an application from Westinghouse Electric Company, LLC, dated April 15, 2008, recently received by the U.S. Nuclear Regulatory Commission (NRC), requesting Amendment No. 1 to export license XSNM03340 for the export of low-enriched uranium (LEU) for use in power plants located in the United Kingdom. The purpose of the Amendment is to: 1) add uranium in the form of powder to the export; and 2) add AREVA NP Inc., as "other party to export" as the supplier of the uranium powder.

Since no other changes to the terms and conditions of the existing license are requested, we intend to issue this minor amendment after the 30-day time period allotted for public review expires and it is determined that applicable export license criteria are met.

Sincerely,

/RA/
