ATTN License reviewer:

This letter is a request a new location of use for 35.200 for cardiovascular clinical procedures to our NRC license number 24-00866-02.

Specifically we are planning to move the clinical cardiovascular activities currently listed under location of use 10F (St Johns Clinic Cardiology, 1900 S National Ave, Suite 1960A Springfield, MO) to a new location. This location will perform the same clinical activities with the same authorized users and same clinical staff as currently performed on our license.

This new location is on the same campus as the main hospital and is within short walking distance. It is also physically connected with the location of use 10C (St Johns Cancer Center) currently listed on our license. The new facility name and address are as follows.

St John's Clinic-Cardiology Ancillary Services
2115 S. Fremont Suite 4000
Springfield, MO 65804

I have submitted a floor plan of this new location which will utilize unit dose as is currently being done. They will maintain the same quality control and radiation safety procedures as they are currently performing. When designing the new suite I elected to shield (1/16 inch lead) location 4069 for radiation safety and camera cross talk purposes due to the short distances. Additionally I shielded (1/16 inch lead) location 4073 due to the high occupancy and short distances. All radioactive material stored and utilized in the hot lab room 4075 will be shielded utilizing lead lined storage and waste containers as well as a lead lined L-Block and lead bricks. Using these appropriate safety devices negates the need to lead line the walls of this location.

Both passages into the Nuclear Medicine suite as well as the door into the hot lab will contain security locks allowing the location to be properly secured when not occupied by trained staff.

RECEIVED APR 25 2008

After we have moved the current activities out of the 1900 S National, Suite 1960A location, I will perform the required close out survey and submit the request to remove this location from our license.

This amendment request is time sensitive since the plan is to move to the new location in early to mid June.

If you have any questions regarding this request, please contact me at 417-820-7704.

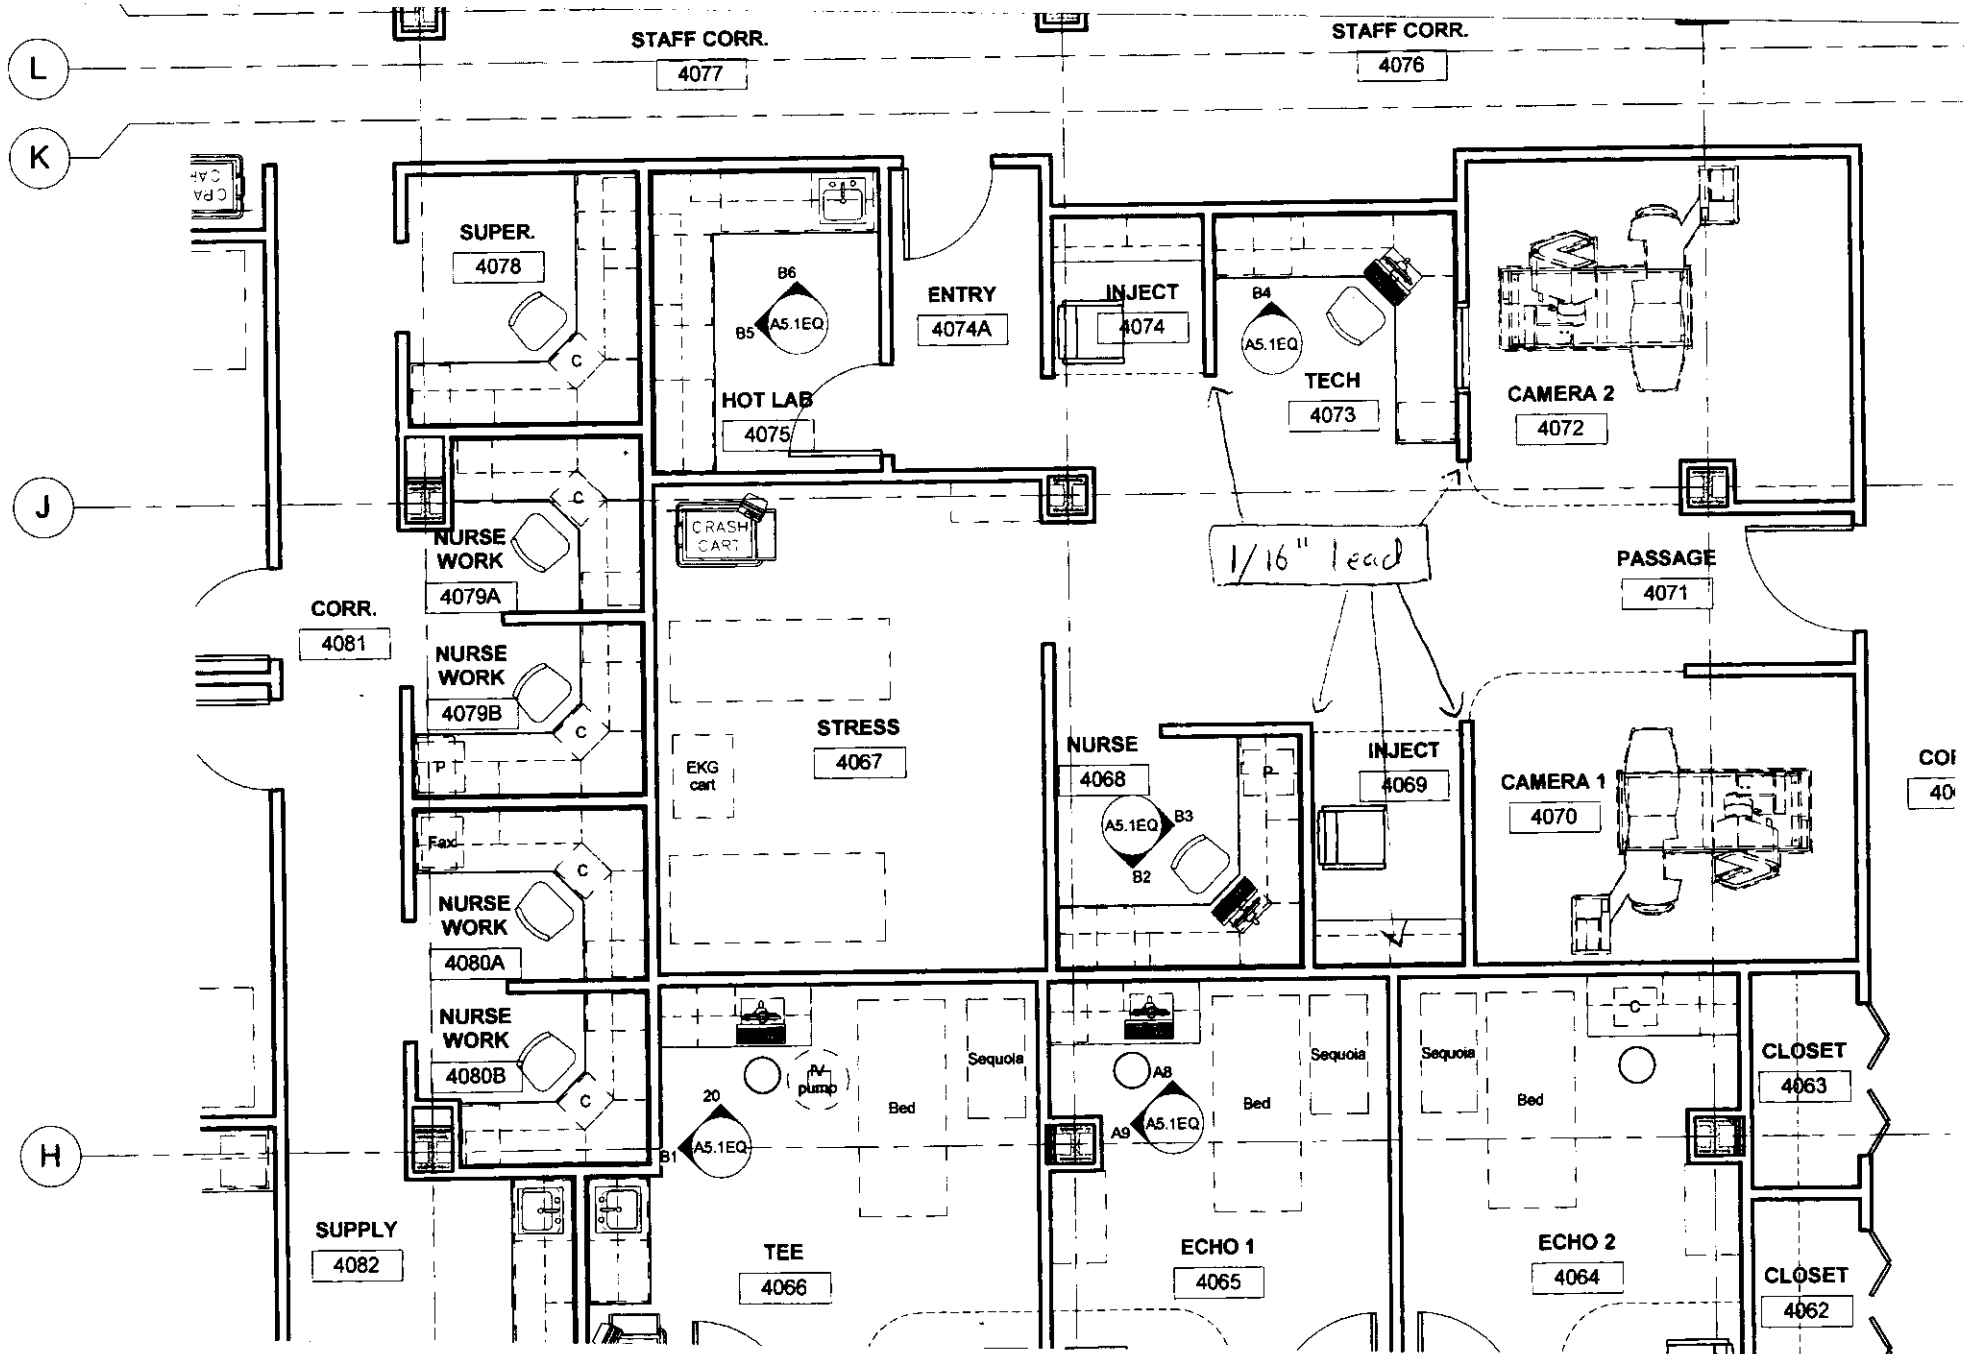

Sincerely,

A handwritten signature in black ink that reads "Nick Lannutti". The signature is written in a cursive style with a long horizontal flourish extending to the right.
