James,

Thank you for the information; however NRC needs to know if the name change will impact the financial assurance for the license. I asked BWXT yesterday to provide a copy of the organization chart before and after the name change-they did but **did not include** on the organization charts the information pertaining to SNM-2001.

Request that you provide an organization chart showing the corporate organization down through all subsidiaries with identification of the parent company responsible for financial assurance.

If you have any questions, please contact me.

Sincerely,

Amy M. Snyder, Senior Project Manager
U.S Nuclear Regulatory Commission
Office of Nuclear Material Safety and Safeguards
Division of Fuel Cycle Safety and Safeguards
Fuel Facility Licensing Directorate (FFLD)
Fuel Manufacturing Branch (FMB)

Beth Colling of our legal staff requested that I send to you the following clarification pertaining to our SLDA site based on her conversations with you.

The Parks Township Shallow Land Disposal Area (SLDA) license SNM-2001 (Docket 70-3085) covers a site that is an inoperative radioactive waste disposal site where operations were conducted between 1960 and 1970. It is located approximately 23 miles east-northeast of Pittsburgh in Armstrong County, Pennsylvania. There have been no changes to the ownership of this site. The assets, liabilities, financial assurance (which is provided by ARCO) and management of SLDA has not changed

Jim
