Conversation with Darren LaClair, new RSO on
3/28/08
231-689-1189

The reviewer spoke to DL to assure that he was aware that the licensee was naming him RSO and that he is willing to perform the duties and responsibilities of that position. He agreed that he was aware and is willing. Further, the reviewer needed to know how many gauges this licensee had in its possession. DL stated that they had one Troxler 3440 gauge. DL asked if the license can specify the 3400 series device. He further stated that they will probably never have a need for more than one device.

James Mullauer, 3/28/08
