**Subject:** Freedom of Information Act Request

I am requesting NRC records under the Freedom of Information Act (FOIA).

My name, address and contact information is:

Joel O. Lubenau  
Certified Health Physicist

[redacted]

I am requesting records in the NRC Nuclear Materials Event Database (NMED) of lost, abandoned or stolen (LAS) radioactive sources in metal scrap reported in 2007.

The U.S. steel industry has borne a significant economic burden because of radioactive sources in metal scrap. A seminar on radioactive sources in metal scrap will be held in Washington, DC on May 21, 2008 sponsored by the Steel Manufacturers Association. I have been asked to speak at the seminar on the subject. The requested information will contribute significantly to public understanding of the NRC's operations. For this reason, a waiver of fee is requested.

In view of the date of the seminar, expedited handling of the request is requested and will be appreciated by all.

Joel O. Lubenau, CHP
