Subject: Safety Culture Pilot Study

Ms. Snyder,

Westinghouse will be able to participate in the Safety Culture Pilot Study as requested in the November 15 correspondence from Mr. Pierson. The primary point of contact for this study will be Mr. Tim Northcut, Manager, Continuous Improvement for the Columbia Site. His phone number is [REDACTED] will be supporting Tim and the NMSS Study Team as well.

We are looking forward to supporting this activity as we agree with Mr. Pierson that feedback from licensees can be most helpful in evaluating programmatic changes, especially considering the substantial differences that exist between 10CFR70 Licensees and Reactor Facilities. We are currently evaluating what background materials may be helpful to the success of Phase I, and hope to discuss those with you in the near future. Feel free to contact Tim or myself as needed for planning and execution of Phase I activities.

Best Regards,

Gerard Couture, Manager
Licensing & Regulatory Programs
Columbia Fuel Fabrication Facility
Westinghouse Electric Company
