Subject: Withdrawal of Transnuclear, Inc. (TN) Application for Amendment 2 to the Standardized Advanced NUHOMS® System (Docket No. 72-1029; TAC NO. L24056)

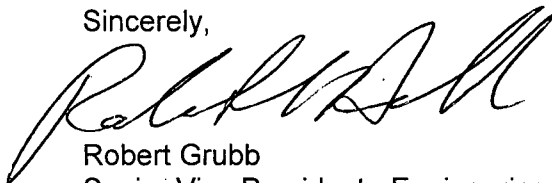

Reference: Letter from Jessica M. Glenny (NRC) to Donis Shaw (TN), "REQUEST FOR ADDITIONAL INFORMATION FOR REVIEW OF AMENDMENT 2 TO THE STANDARDIZED ADVANCED NUHOMS® SYSTEM (TAC NO. L24056)," March 27, 2008

Gentlemen:

Transnuclear hereby withdraws its application for Amendment 2 to the Standardized Advanced NUHOMS® System. The key operational enhancements that would have been realized by general licensees operating under Amendment 2 as originally proposed no longer exist due to the changes requested by the staff through the RAI process and the anticipated issuance of RIS 2007-026, "Implementation of Certificate of Compliance Amendments to Previously Loaded Spent Fuel Storage Casks."

Should you have any questions regarding this submittal, please do not hesitate to contact Mr. Don Shaw at 410-910-6878 or me at 410-910-6930.

Sincerely,

Robert Grubb
Senior Vice President - Engineering
